EDUCATION

Western Governors University

Expected May 2028

Bachelor of Science in Software Engineering

Salt Lake City, UT

Relevant Coursework: Data Structures and Algorithms, Programming in Python, Frontend Web Development, Data Management Foundations, User Interface Design, User Experience Design, Probability & Statistics, Version Control, IT Leadership

TECHNICAL SKILLS

Languages & Markup: TypeScript/JavaScript, C#, Python, Swift, SQL, Dart, HTML/CSS, XAML

Frameworks & Libraries: React, React Native, Next.js, .NET MAUI, SwiftUI, Node.js, Express, FastAPI, Flutter

Tools & Databases: Git, GitHub, Azure DevOps, Docker, PostgreSQL, Firebase, Supabase, AWS, Vercel, Figma

Certifications: CodePath Advanced Web Development (Honors), Cornell University Machine Learning Foundations, Google Generative AI Leader, Udacity AWS AI Engineer (Scholar)

EXPERIENCE

Founding Engineer — former Software Engineer Intern, Product

January 2026 - Present

Todd — Venture-backed agriscience startup

Los Angeles, CA

- Implemented internationalization (i18n) support by integrating localized content, locale-aware routing, and translation workflows while shipping 59+ pull requests across customer-facing React and Next.js applications
- Led and **mentored 3 software engineering externs** during a 4-week sprint, increasing completed feature work by 40%
- Improved codebase maintainability and release readiness by optimizing performance, maintaining CI/CD workflows, updating dependencies, and resolving security-related package issues

Mobile Application Developer Intern

April 2026 - September 2026

Itron — Global utility technology company

Liberty Lake, WA

- Refactored hardcoded color values into dynamic semantic resources in .NET MAUI, establishing the foundation for scalable light/dark theming
- Raised unit-test coverage from 41% to 62% in 10 weeks by adding 1,000+ test cases with MSTest and Moq and restoring previously ignored tests, strengthening code reliability and maintainability
- Built and designed a diagnostic log-upload workflow using REST APIs and HTTP POST request to collect and transmit application log data, reducing the issue-reporting process from five manual steps to two

Mobile Software Engineer Intern

September 2025 - January 2026

Kahani — Recovery-support startup

New York, NY

- Architected a feature-modular MVVM codebase spanning 19 screens and 9 feature modules with Provider for reactive state, go_router for declarative navigation, and a shared service layer over Firebase Auth and Cloud Firestore
- Led engineering and product planning for a mobile app for iOS and Android
- Selected to extend the internship and independently translated Figma designs into a production-ready site with React, Vite, Cloud Firestore and Google Analytics, achieving a Lighthouse performance score of 98

PROJECTS

Catalyst, Career Platform | *Next.js, TypeScript, OpenAI API, Tavily, PostgreSQL, Prisma, Auth.js, Vercel*

[Live Site](#)

- Built an end-to-end internship platform with a demo, authentication, Kanban workflows, and personalized management
- Integrated OpenAI and Tavily to generate Interview Briefs that research companies, analyze job descriptions, and produce personalized interview preparation with company insights and role-specific guidance

HackHQ, Hackathon Discovery Platform | *TypeScript, Next.js, Mapbox, Clerk, Supabase, Drizzle, Cloudflare*

[Live Site](#)

- Co-founded an open-source hackathon discovery repo and live platform that has earned **100+ GitHub stars**
- Shipped user-facing features with a collaborative team, translating product needs into production functionality with real users

LEADERSHIP & PROFESSIONAL DEVELOPMENT

Break Through Tech

April 2026 - Present

AI Program Fellow: An initiative of Cornell Tech

- Selected for a year-long AI program focused on machine learning foundations, industry projects, and mentorship

Management Leadership for Tomorrow (MLT)

January 2026 - Present

Career Prep Fellow: Software Engineering Track

- Accepted into a selective **18-month professional development** program that accelerates the career growth of emerging leaders through structured coaching, mentorship, and targeted business and technical skill-building
