EDUCATION

Western Governors University

Bachelor of Science in Software Engineering

Salt Lake City, UT

Expected May 2028

Relevant Coursework: Programming in Python, Data Structures and Algorithms, Frontend Web Development, Probability & Statistics, Data Management Foundations, IT Leadership, User Interface Design, User Experience Design, Version Control

TECHNICAL SKILLS

Languages & Markup: C#, TypeScript/JavaScript, Python, SQL, Dart, HTML/CSS, XAML

Frameworks & Libraries: .NET MAUI, React, Next.js, Node.js, Express, FastAPI, NumPy, pandas, scikit-learn, Flutter

Tools, Cloud & Databases: Git, GitHub, Azure DevOps, Docker, GitHub Actions, PostgreSQL, Supabase, AWS, Vercel, Figma

Certifications: Cornell University Machine Learning Foundations, Google Generative AI Leader, Udacity Future AWS AI Engineer (Scholar), CodePath Advanced Web Development (Honors)

EXPERIENCE

Mobile Application Developer Intern

April 2026 - Present

Itron — Global utility technology company

Liberty Lake, WA

- Develop and maintain features for Temetra North America, an enterprise application for iOS, Android, and Windows used by utility providers across the United States and Canada, using .NET MAUI, C#, and XAML in three-week Agile sprints
- Raised unit-test coverage from 41% to 62% in 10 weeks by adding 1,000+ test cases with MSTest and Moq and restoring previously ignored tests, strengthening code reliability and maintainability
- Built a diagnostics and log-upload workflow that reduced the average issue-reporting process from five manual steps to two

Frontend Software Engineer Intern

January 2026 - April 2026

Todd — Venture-backed agriscience startup

Los Angeles, CA

- Implemented internationalization (i18n) support by integrating localized content, locale-aware routing, and translation workflows while shipping 45+ pull requests across customer-facing React and Next.js applications
- Led and **mentored 3 software engineering externs** during a 4-week sprint, increasing completed feature work by 40%
- Improved codebase maintainability and release readiness by optimizing performance, maintaining CI/CD workflows, updating dependencies, and resolving security-related package issues

Software Engineer Intern

September 2025 - January 2026

Kahani — Recovery-support startup

New York, NY

- Led engineering and product planning for a Flutter/Dart recovery-support app for iOS and Android, owning feature definition and implementation
- Architected a feature-modular MVVM codebase spanning 19 screens and 9 feature modules with Provider for reactive state, go_router for declarative navigation, and a shared service layer over Firebase Auth and Cloud Firestore
- Selected to extend the internship and independently translated Figma designs into a production-ready site with React, Vite, Cloud Firestore and Google Analytics, achieving a Lighthouse performance score of 98

PROJECTS

Catalyst, Career Platform | *Next.js, TypeScript, OpenAI, Tavily, PostgreSQL, Prisma, Auth.js, Vercel*

[Live Site](#)

- Developed an AI-powered internship tracker with Kanban pipeline, authentication, and personalized application management
- Integrated OpenAI and Tavily to generate Interview Briefs that research companies, analyze job descriptions, and produce personalized interview preparation with company insights and role-specific guidance

Leukemia Blood Cell Classifier | *Python, TypeScript, React, FastAPI, TensorFlow, Keras, Grad-CAM*

[Live Site](#)

- Fine-tuned a ResNet50 classifier on blood-cell microscopy dataset of approx 3.2k images, reaching 97.8% validation accuracy
- Built a React/Vite dashboard displaying class-level metrics, training performance, and Grad-CAM attribution heatmaps

LEADERSHIP & PROFESSIONAL DEVELOPMENT

Break Through Tech

April 2026 - Present

AI Program Fellow: An initiative of Cornell Tech

- Selected for a year-long AI program focused on machine learning foundations, industry projects, and mentorship

Management Leadership for Tomorrow (MLT)

January 2026 - Present

Career Prep Fellow: Software Engineering Track

- Accepted into a selective **18-month professional development** program that accelerates the career growth of emerging leaders through structured coaching, mentorship, and targeted business and technical skill-building
