## EDUCATION

### Western Governors University

Bachelor of Science in Software Engineering

Salt Lake City, UT

Exp May 2028

## TECHNICAL SKILLS

**Languages & Markup:** C#, TypeScript/JavaScript, Python, SQL, Dart, HTML/CSS, XAML

**Frameworks & Libraries:** .NET MAUI, React, Next.js, Node.js, Express, FastAPI, NumPy, pandas, scikit-learn, Flutter

**Tools, Cloud & Databases:** Git, GitHub, Azure DevOps, Docker, GitHub Actions, PostgreSQL, Supabase, AWS, Vercel, Figma

**Certifications:** Google Generative AI Leader, Google IT Support, AWS Future AI Engineer, CodePath Advanced Web Development

## EXPERIENCE

### Mobile Application Developer Intern

April 2026 - Present

Itron — Global smart utilities industry

Liberty Lake, WA

- Develop and maintain features for Temetra North America, a **cloud-based cross-platform** application serving gas, electric, and water utility providers across the United States and Canada; using .NET MAUI, C#, and XAML in AGILE 3-wk sprints
- Boosted unit test **coverage from 51% to 80%** within 6 weeks by contributing **1000+ new tests** with Moq and MS Test, resolving ignored cases to significantly enhance code reliability and long-term maintainability
- Designed and built a customer diagnostics/log upload feature to streamline issue reporting and support workflows by 60%

### Lead Frontend Engineer Intern

January 2026 - April 2026

Todd — Agriscience sector startup

Los Angeles, CA

- Directly accelerated product launch, **shipping 45+ PRs** across the website, client dashboard, support flows, and core features
- Led and **mentored 3 software engineering externs** during a 4-week sprint by creating GitHub issues, breaking down features into manageable tasks, conducting code reviews, and supporting **end-to-end feature delivery** with React and Next.js
- Improved frontend codebase maintainability and release readiness by supporting performance, CI/CD workflows, updating dependencies, resolving security-related package issues, and strengthening code review practices as a top contributor

### Mobile Engineer Intern

September 2025 - January 2026

Kahani — Stanford-based startup

NYC, New York

- Built **cross-platform mobile app** feature with Flutter, Dart, and GCP, with MVVM for scalability and maintainability
- Co-authored infra + screen inventory for pilot features (states, edge cases, data flows), cutting design to engineer handoff time by **40%** and reducing open questions by **70%**
- Extended internship: solo built company marketing website to production from Figma, delivering a deployment-ready rebuild in 3 weeks— React, Vite, and GCP Firestore + Analytics, with a Lighthouse Performance score of 98

## PROJECTS

**CS Course Explorer** | React, Vite, Express.js, OAuth, Railway, PostgreSQL, Docker, Cloud Run

[View Demo](#)

- Shipped **end-to-end in 2 weeks** by a 3-dev team, owning and co-authoring PRD, scope, error handling and demo
- Achieved fast UX by keeping p95 API under **500ms** in test data, added SQL constraints and indexes for fast reads

**Leukemia Blood Cell Classifier** | Python, TypeScript, React, FastAPI, Tensorflow, Keras, Grad-CAM

[View Demo](#)

- Fine-tuned ResNet50 classifier on blood-cell microscopy dataset of approx 3.2k images, reaching **97.8% accuracy**
- Built an interactive **React + Vite** dashboard with **Recharts** and Grad-CAM to visualize findings, training, and accuracy

## LEADERSHIP & PROFESSIONAL DEVELOPMENT

### Break Through Tech

April 2026 - Present

AI Program Fellow: An initiative of Cornell Tech

- Awarded acceptance for a year-long program focused on machine learning foundations, industry AI projects, mentorship, and a Cornell University Machine Learning certificate

### Management Leadership for Tomorrow (MLT)

January 2026 - Present

Career Prep Fellow: Software Engineering Track

- Accepted into a selective **18-month professional development** program that accelerates the career growth of emerging leaders through structured coaching, mentorship, and targeted business and technical skill-building
