EDUCATION

Western Governors University

Bachelor of Science in Software Engineering

Salt Lake City, UT

Exp May 2028

TECHNICAL SKILLS

Languages: JavaScript/TypeScript, Python, C#, Dart, SQL, HTML/CSS

Frameworks & Libraries: React, Next.js, .NET MAUI, Flutter, Node.js, Express, FastAPI

Tools & Platforms: Git, GitHub, Azure DevOps, Vercel, Figma, AWS, Google Cloud Platform, Supabase

Certifications: Google Generative AI Leader, Google IT Support, AWS Future AI Engineer, CodePath Advanced Web Development

EXPERIENCE

Mobile Application Developer Intern

April 2026 - Present

Itron — Global smart utilities industry

Liberty Lake, WA

- Developing and maintaining features for Temetra North America, a production **cross-platform** utility application serving customers across the United States and Canada using **.NET MAUI, C, and XAML**
- Boosted unit test **coverage from 51% to 74%** within 6 weeks by contributing **1000+ new tests**, identifying and resolving ignored cases to significantly enhance code reliability and long-term maintainability
- Designed and implemented a customer diagnostics/log upload feature to streamline issue reporting and support workflows

Lead Frontend Engineer Intern

January 2026 - April 2026

Todd — Agriscience sector startup

Los Angeles, CA

- Directly accelerated product launch, **shipping 45+ PRs** across the website, client dashboard, support flows, and core features
- Led and **mentored 3 software engineering externs** during a 4-week sprint by creating GitHub issues, breaking down complex features into manageable tasks, conducting code reviews, and supporting **end-to-end feature delivery** with React and Next.js
- Improved frontend codebase maintainability and release readiness by supporting performance, CI/CD workflows, updating dependencies, resolving security-related package issues, and strengthening code review practices as a top contributor

Mobile Engineer Intern

September 2025 - January 2026

Kahani — Stanford-based startup

NYC, New York

- Built **cross-platform mobile app** feature with **Flutter, Dart, and GCP**, with **MVVM** for scalability and maintainability
- Co-authored infra + screen inventory for pilot features (states, edge cases, data flows), cutting design to engineer handoff time by **40%** and reducing open questions by **70%**
- Extended internship: **solo built company marketing website** to production from Figma, delivering a deployment-ready rebuild in 3 weeks— React, Vite, and GCP Firestore + Analytics, with a **Lighthouse Performance score of 98**

PROJECTS

CS Course Explorer | React, Vite, Express.js, OAuth, Railway, PostgreSQL, Docker, Cloud Run

[View Demo](#)

- Shipped **end-to-end in 2 weeks** by a 3-dev team, owning and co-authoring PRD, scope, error handling and demo
- Achieved fast UX by keeping p95 API under **500ms** in test data, added SQL constraints and indexes for fast reads

Leukemia Blood Cell Classifier | Python, TypeScript, React, FastAPI, Tensorflow, Keras, Grad-CAM

[View Demo](#)

- Fine-tuned ResNet50 classifier on blood-cell microscopy dataset of approx 3.2k images, reaching **97.8% accuracy**
- Built an interactive **React + Vite** dashboard with **Recharts** and Grad-CAM to visualize findings, training, and accuracy

LEADERSHIP & PROFESSIONAL DEVELOPMENT

Break Through Tech

April 2026 - Present

AI Program Fellow: An initiative of Cornell Tech

- Awarded acceptance for a year-long program focused on machine learning foundations, industry AI projects, mentorship, and a Cornell University Machine Learning certificate

Management Leadership for Tomorrow (MLT)

January 2026 - Present

Career Prep Fellow: Software Engineering Track

- Accepted into a selective **18-month professional development** program that accelerates the career growth of emerging leaders through structured coaching, mentorship, and targeted business and technical skill-building
